Application/Control Number: 10/662,335

Art Unit: 1764

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: the closest art of record Serniuk et al (2,934,579) discloses a process of isomerization of paraffins in the present of ionic catalyst (col. 1, line 15 thru col. 30). Serniuk also disclose that various hydrocarbons can be present in the reaction to minimize the formation of sludge (col. 1, lines 37-44). However, Serniuk does not guide one having ordinary skill in the art to employ a hydrocarbon as called for in the claim so that a reaction yield results shown in the examples disclosed in the specification of this application (examples starting from page 10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
